MIS 184N SOCIAL MEDIA ANALYTICS-MSBA

Course number may be repeated for credit when the topics vary. Selected topics in business analytics. Restricted to students admitted to the Master of Science in Information,Risk, and Operations Management. Prerequisite: Graduate Standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets January 12-March 02.

• 05150 MW 130 - 300P GSB 3.130 BARUA, A

MIS 284N AI IN THE ENTERPRISE

Course number may be repeated for credit when the topics vary. Selected topics in business analytics. Restricted to students admitted to the Master of Science in Information,Risk, and Operations Management. Prerequisite: Graduate Standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics Working Professionals program. Class meets March 3-May 4. Partially taught as a Web-based course.

• 05155 T 700 - 815P AGARWAL, A

AI IN THE ENTERPRISE-MSBA

Hour(s) to be arranged. Course number may be repeated for credit when the topics vary. Selected topics in business analytics. Restricted to students admitted to the Master of Science in Information,Risk, and Operations Management. Prerequisite: Graduate Standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets January 12-May 4. Partially taught as a Web-based course.

• 05160 AGARWAL, A

ANALYTICS FOR UNSTRUCTURED DAT

Course number may be repeated for credit when the topics vary. Selected topics in business analytics. Restricted to students admitted to the Master of Science in Information,Risk, and Operations Management. Prerequisite: Graduate Standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics Working Professionals program. Partially taught as a Web-based course.

• 05165 W 830 - 945P BARUA, A

APPLCTNS OF DATA STORY TELLING

Course number may be repeated for credit when the topics vary. Selected topics in business analytics. Restricted to students admitted to the Master of Science in Information,Risk, and Operations Management. Prerequisite: Graduate Standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets January 13-February 26.

• 05170 TTH 900 - 1100 GSB 3.138 DRAKOU, Z

MIS 185N BLOCKCHAIN SOLUTION DEV-MSBA

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets March 3-May 4. meets with MIS 185N.

• 05175 TTH 200 - 300P GSB 3.130 ZHANG, W

BLOCKCHN SOLTN DEV SMRT CNTRCT

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. Class meets March 3-May 4. meets with MIS 185N.

• 05180 TTH 200 - 300P GSB 3.130 ZHANG, W

DATA GOVERNANCE AND RESP AI

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Topic description: Discuss how organizations need robust data governance to ensure the integrity of intelligent models and the data used to develop them. Explore the data governance discipline including socio-technic al solutions that integrate policy, people, and process to ensure quality, confidentiality, and compliance of data assets throughout its lifecycle. Restricted to students in the Master of Science in Information Technology and Management program. meets with MIS 185N.

• 05185 M 700 - 800P GSB 3.138 HENDRAWIRAWAN, D

DATA GOVERNANCE/RESP AI-MSBA

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. meets with MIS 185N.

• 05190 M 700 - 800P GSB 3.138 HENDRAWIRAWAN, D

DATA PRDCT LIFECYCLE MGMT-MSBA

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. meets with MIS 185N.

• 05195 M 600 - 700P GSB 3.138 HENDRAWIRAWAN, D

HUMAN DIMENSIONS CYBERSECURITY

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. meets with MIS 185N.

• 05200 T 730 - 830P GSB 3.106 HENDRAWIRAWAN, D

HUMAN DMNSIONS CYBERSCRTY-MSBA

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. meets with MIS 185N.

• 05205 T 730 - 830P GSB 3.106 HENDRAWIRAWAN, D

MANAGING DATA PRODUCT FOR AI

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Topic description: Discuss how increased consumerization of AI, mobile, and cloud has driven organizations to streamline the management and delivery of data as a product. Learn to manage the data lifecycle from the e conomic lens and user experience of the data consumers and producers and a data product should be tied to value creation and usability. Restricted to students in the Master of Science in Information Technology and Ma nagement program. meets with MIS 185N.

• 05210 M 600 - 700P GSB 3.138 HENDRAWIRAWAN, D

TECH DIMENSIONS CYBERSECURITY

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. Class meets March 4-May 4. meets with MIS 185N.

• 05215 W 330 - 530P GSB 3.106 TANRIVERDI, H

TECH DIMENSIONS CYBERSECURITY

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets March 4-May 4. meets with MIS 185N.

• 05220 W 330 - 530P GSB 3.106 TANRIVERDI, H

TECH FDTN AI DRVN CYBRSCRTY

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. Class meets March 2-May 4.

• 05224 W 330 - 530P GSB 3.106 TANRIVERDI, H

MIS 285N AI IN THE ENTERPRISE

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. Class meets March 3-May 4. meets with MIS 285N.

• 05225 TTH 900 - 1100 GSB 3.138 AGARWAL, A

AI IN THE ENTERPRISE

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science Business Analytics program. Class meets March 03-May 4. meets with MIS 285N.

• 05230 TTH 900 - 1100 GSB 3.138 AGARWAL, A

AI STRAT DIGITAL TRANS-DAL

Hour(s) to be arranged. Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the MBA Program in Dallas. Class meets January 30-March14. Taught at The Centrum in Dallas, Texas.

• 05235 BARDHAN, I

GENERATIVE AI I

Course number may be repeated for credit when the topics vary. Selected topics in information technology and management. Restricted to students admitted to the Master of Science in Information Technology and Management program. Prerequisite: Graduate standing; additional prerequisites vary with the topic. Restricted to students in the Master of Science in Information Technology and Management program. Class meets January 12-March 2. meets with MIS 285N.
